The Legal Firm “Barbaresco Fenso” was established by its founders Enrico Barbaresco and Raffaele Fenso, who decided to strengthen their long-standing collaboration by setting up a law-consulting firm to provide legal services in specific law matters.

The firm has offices in Milan, Rome and Pordenone and has been operating in close collaboration and constant sharing of knowledge with other selected experts in the same field.

PRACTICE AREAS

In view of their extensive experience in the field of regulatory law, they mainly specialize in legal services encompassing all the branches of Administrative Law and, more specifically, in government contract for the procurement of goods and public services and facilities, expropriation by right of eminent domain (compulsory purchase), town planning Law, energy and environmental Law.

In addition, Enrico Barbaresco and Raffaele Fenso provide litigation services in support of the above mentioned law matters, both individually and jointly, defending and representing their clients at the Italian Courts of Justice and Independent Agencies.

They avail themselves of foreign Law firms to defend at Foreign and European Union Courts of Justice.

DEEP EXPERIENCES AND SKILLS.

- 1) Legal advice and various litigation on behalf of business enterprises, subject to governmental regulation, about planning and fulfilment of constructions;
- 2) Legal advice and litigation on energy matters, at international arbitration too;
- 3) Legal advice and various litigation on behalf of business enterprises, subject to governmental regulation, that perform public services and the same kind of entity that provide necessary services to the public;
- 4) Legal advice and litigation on behalf of private entities with regard the field of environmental Law and, specifically, of unlawful treatment of hazardous waste.
